Murray Pounds, Director of Parks and Recreation

We were contacted by a group to put a Halo Game simulator @\$8.00 a "ride" where the kids could pay as they go. Another choice was we could buy the time for the weekend which is \$700. The game would be at the festival all day Saturday and Sunday. Something for the Tweens. T rating is 10 and over for playing this video game.

It was suggested to put it in the soccer field.

We will think about this a little further.

Shirt order is going around please fill out your size and number of shirts requested.

All invoices except Coombs have been sent out.

Fred Burk said that for the Car Show has Trophies planned but there were no t-shirts. There was no give away last year and Fred thought we should have one for the car show.

Amigos has been contacted about providing their food truck for the Car show attendees.
